

MONITORY AND EVALUATION

Time: 3 Hours

Max Marks: 70

Note: Answer all questions.

Give Diagrammatic representation wherever necessary.

Write an essay on the following

2 X 10 = 20

1. A Health Care NGO has launched a new initiative to improve maternal health in a rural area. Develop a basic Monitoring and Evaluation plan for this initiative, including key indicators, data collection methods, and reporting mechanisms.
2. You are working as a district level medical officer in charge of district A in Telangana. Reportedly, the proportion of the institutional delivery has suddenly dropped down to 72% in this FY from 93% in the previous FY. The state wants you to evaluate the ANC and institutional delivery component of the program RMNCH+A. Formulate your objective, outline the plan in a diagram, and identify the resources you need for this exercise.

Write a short note on the following

6 X 5 = 30

3. The Role of Technology in Enhancing Monitoring and Evaluation Processes
4. Cost-Benefit Analysis.
5. HMIS
6. Capacity Building for Monitoring and Evaluation Professionals
7. Implication of missing data in Monitoring and Evaluation
8. Use of Logic Models in Monitoring and Evaluation

Write briefly on the following

10 X 2 = 20

9. Why is stakeholder involvement crucial in the Monitoring and Evaluation process?
10. Rapid evaluation.
11. Output indicators.
12. Components of data management
13. MOV with example.
14. List sources for Vital statistics in India.
15. Differentiate between cost-effective and cost-beneficial analysis.
16. What is the difference between output and outcome indicators.
17. Purpose of formative evaluation.
18. 'Nikshay' portal.
